

“Revel in Your Love” Program Notes

“Revel in Your Love” is an upbeat, happy song of worship and celebration. The lyrics to this song express deep theological truths in fresh ways, utilizing literary devices such as rhyme, alliteration, and even a reference to an old hymn. The melody rocks back and forth quickly in the verse, then transitions into the catchy hook featured in the chorus. Another characteristic of the chorus that is worth noting is the fun harmonic walkup incorporating a secondary dominant chord.
